

Swimming and wellness

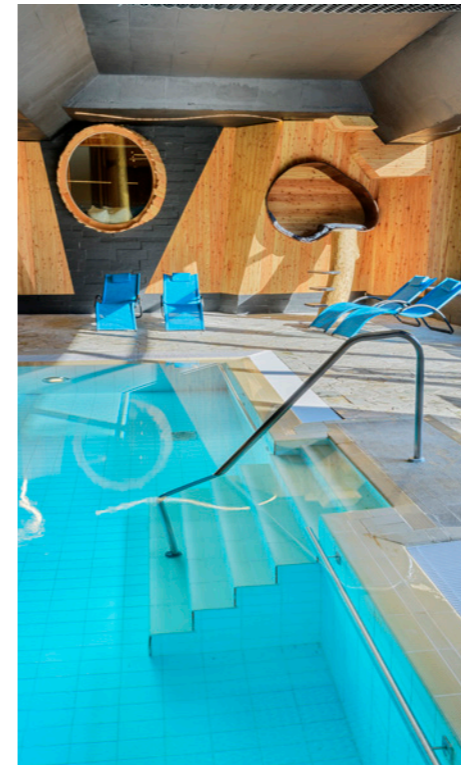

on the banks of Lake Tegernsee, Bad Wiessee

Customer Hotel Terrassenhof

System Ultrafiltration, pool water in its purest form

Description

Refurbishment of the entire water treatment for the indoor pool and the whirlpool of Hotel Terrassenhof. Energy-efficient ultrafiltration systems type spaliQ:UF150 by Grünbeck including measuring, control and dosing technology were installed. Thanks to the compact system layout and the low water demand during the backwash of the ultrafiltration, the space required for the technology is considerably less than with conventional systems. The specifications of DIN 19643-4 are met in all respects.

Scope of supply of whirlpool

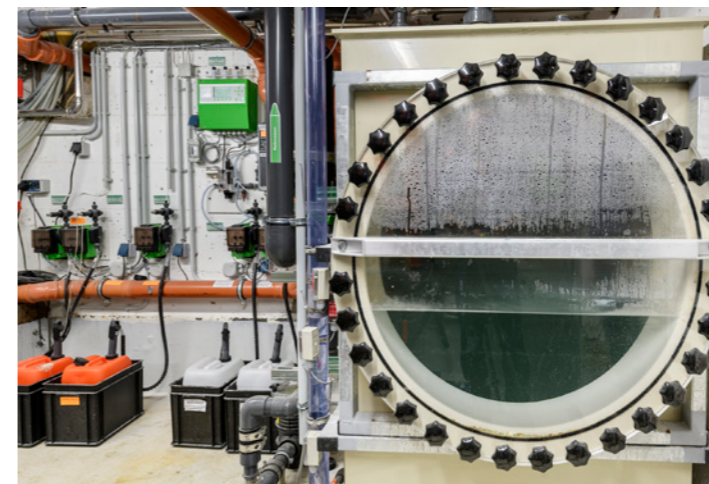

- 1 Ultrafiltration system
type spaliQ:UF150, capacity 15 m³/h
- 1 Raw water tank
manufactured on site according to
GuV R 108
- 1 Measuring, control and dosing
technology

Customer Hotel Terrassenhof
System Ultrafiltration, pool water in its purest form
