

Swimming fun for the entire family

Customer Private customer

System Vinyl-lined pool with skimmer technology and sand filter system

Description

Subsequent realisation of a pool made of concrete formwork blocks with high-grade vinyl lining. The shallow water area is perfect for the little ones to let off steam on hot days. Grünbeck's filter technology ensures an unadulterated swimming experience. A heat pump keeps the pool well-tempered. The slide cover ensures safety against unintentional use.

Scope of supply

- GENO-mat F 600 H
- Circulation pumps TOP 14 WS Sole (three-phase current, brine)
- Control unit BWH-W
- Power-LED underwater spotlights, corrosion-resistant design
